- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

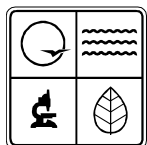

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☐ No

Comments: The UAA was conducted in July 2005 and no WBCR was observed. The stream did not meet the depth criteria in the 3 sites that were evaluated. Due to error in the Water Quality Standards, however, Site 001 (Town Branch) is actually in an unclassified portion. In addition, the downstream most site is over 2 miles from mouth. Therefore, the committee feels there is not enough information to make a determination about the WBCR use and recommends more data be gathered downstream on Piper Creek.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☐ Remove Use ☒ Inconclusive
